Kate Brown  
Local2030 Islands Network Secretariat

Dear

*Ms. Brown,*

We are writing to confirm that Gibraltar supports the Four Principles of the Local2030 Islands Network to:

- Identify local goals to advance the SDGs and strengthen long-term political leadership on climate resilience and net-zero emissions pathways.
- Strengthen public-private partnerships that support diverse stakeholders in integrating sustainability priorities into policy and planning.
- Measure SDG progress through tracking and reporting on locally and culturally informed indicators.
- Implement concrete initiatives that build island resilience and a circular economy through locally appropriate solutions, particularly at the water-energy-food nexus.

By way of this letter, we express our intent to implement these principles and we are committed to engaging in collaborative island projects which advance the local implementation of the Sustainable Development Goals. We will ensure to make a clear statement on our commitment to these goals.

Our key priorities in the collaboration with the Local2030 Islands Network include addressing climate change, greening our transport network, increasing our renewable energy capacity, as well as improving our urban biodiversity and protecting our marine biodiversity.

Contact person for Gibraltar is Mr. Stephen Warr, contact details as the below:

Mr. Stephen Warr  
Senior Environment Officer  
Department of the Environment, Sustainability, Climate Change and Heritage.  
HM Government of Gibraltar
